

POLICY STATEMENT

- ✓ **South West Steel Construction Ltd** confirms total commitment to the health, safety and welfare of its employees through a policy of legal responsibility and open dialogue at all levels
- ✓ **South West Steel Construction Ltd** is committed to protecting the environment by ensuring a continued review of materials and energy resources used within the product and supporting processes
- ✓ **South West Steel Construction Ltd** is committed to providing a consistently conforming product that complies with customer contract requirements
- ✓ **South West Steel Construction Ltd** is committed to the requirements of ISO 9001 and EN 1090 and associated technical requirements for compliance and continuous improvement

South West Steel Construction Ltd establishes the above four philosophies of the organisation by ensuring the continuation of the following:

- Identifying the necessary resources to meet the customer and product specifications with due consideration to the environment
- Monitor product and systems compliance and performance to prevent unnecessary wastage and maximise efficiency for profitability
- Evaluate the efficiency of the business system and processes by prioritised quality, environmental, safety and system related internal audits
- Maximum communication with customers and monitoring supplier performance in support of product compliance and traceability
- Motivate and encourage inclusion of technical and administration employees at all levels in support of these policy objectives
- Monitoring of customer satisfaction and other performance improvement initiatives in line with these policy objectives
